Career Objective

Aspiring data science professional currently pursuing B.Tech in Computer Science (Data Science) with a strong foundation in AI, machine learning, and software development. Eager to apply technical skills in real-world projects and contribute to innovative solutions in the tech industry.

Education

B.Tech in Computer Science and Engineering (Data Science)

Echelon Institute of Technology, affiliated to YMCA

June 2023 - June 2027

Technical Skills

Programming Languages: Python, C/C++

Libraries & Tools: OpenCV, NumPy, Pandas, Scikit-learn

Technologies: Machine Learning, Deep Learning, Data Analysis

Soft Skills: Communication, Problem-Solving, Teamwork, Critical Thinking

Others: Advanced Excel

Projects

Resume Screening AI

Developed an AI-based system that automates resume screening using NLP techniques to match candidates' qualifications with job requirements. Improved recruitment efficiency by filtering resumes based on predefined criteria.

Face Recognition Attendance System

Implemented a real-time face recognition system using OpenCV and KNN for attendance management. The system captures faces via webcam and records attendance in a CSV file, handling unknown faces effectively.

Certifications

Cyber Security: Basic to Advanced - Pregrade

Soft Skills - NPTEL

Advanced Excel

Internships / Work Experience

No formal experience yet - actively seeking opportunities to apply and grow technical expertise.

Achievements & Extra-Curriculars

Participated in multiple academic and technical workshops

Engaged in continuous self-learning through online platforms
